

PITCH DECK

# FORGOTTEN CORE

WEB3-POWERED ACTION-ADVENTURE GAME WHERE PLAYERS  
EXPLORE A POST-HUMAN WORLD

# ABOUT US

Forgotten Core is a narrative-driven action-adventure game set in a post-human world where a robot girl searches for her creator. Players explore a mysterious, abandoned Earth, fight rogue machines, and uncover hidden memories.

The game will integrate NFT assets, Web3 economy, and offer real digital ownership.

# CORE WEB3 FEATURES

## NFT Integration

- **Playable NFTs:** Certain characters, weapons, or skins are NFTs with limited supply.
- **Founders NFT Collection:** Early supporters get unique NFTs with utility.

## Token Economy

- **Create a native token \$CORE to be used for:**
  - In-game purchases
  - NFT upgrades
  - Player staking and rewards

## Play-to-Own System

- **Players can earn NFTs and Tokens by:**
  - Completing story missions
  - Winning PvP battles
  - Participating in special events

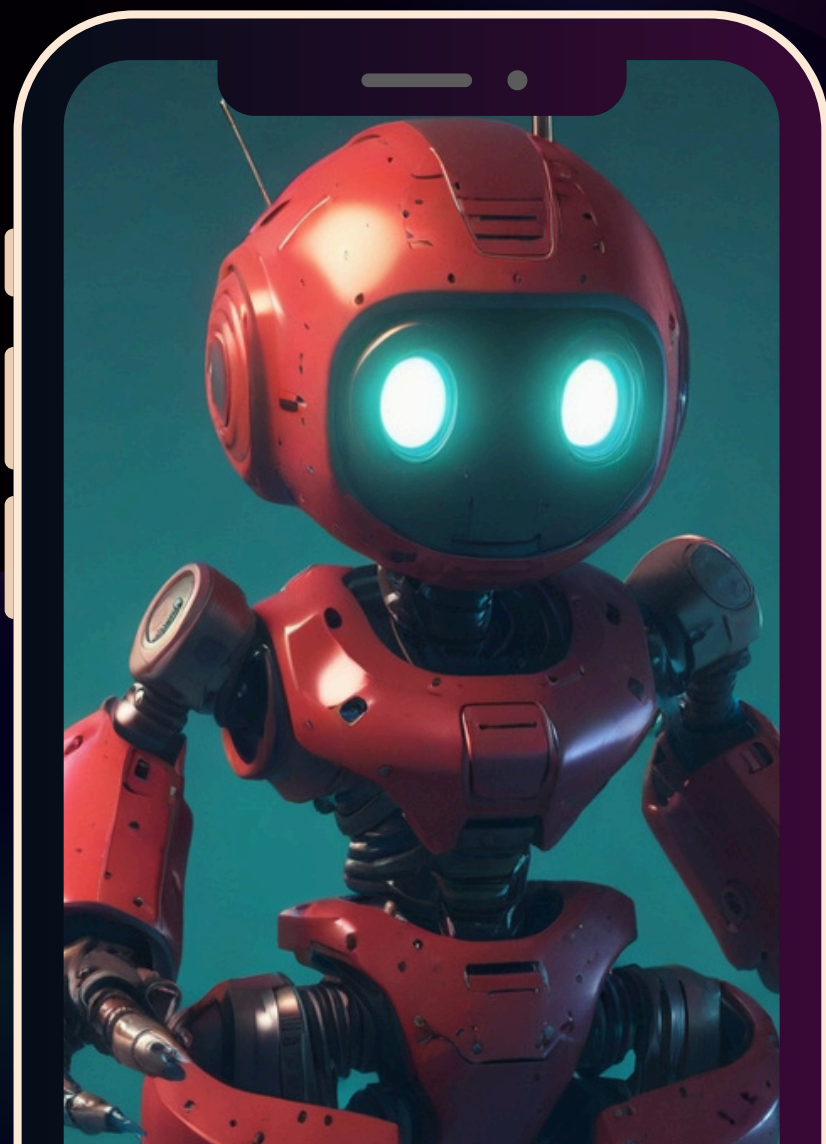

## DAO Governance

- Holders of NFTs and \$CORE tokens can vote on future game content, expansions, and lore.

# ROADMAP OUTLINE

Q1

Q2

- ALPHA GAME DEMO RELEASE
- FOUNDERS NFT MINT

Q3

- MARKETPLACE BETA
- FULL GAME LAUNCH
- PVP MODE

Q4

- MOBILE PORT
- MERCH
- METAVERSE EXPANSION

# MONETIZATION PHILOSOPHY

This won't just be a Play-to-Earn, but a Play-to-Own & Play-for-Story model, where the game itself is fun and rewarding, with Web3 as an added layer of ownership, not the only focus.

Imagine a game where players shape the world. Forgotten Core is more than just an adventure – it's a community-driven experience where NFT holders influence game development, unlock exclusive content, and participate in a decentralized economy. Powered by blockchain and built for Web3 gamers, this is the next evolution of gaming.

Are you ready to be part of history?

# THANK YOU!
